

حذف التدفق الخاص بي

استخدم هذه الوظيفة عندما تريد حذف التدفق بالكامل. يتوفر هذا الخيار في قسم التدفقات الخاصة بي ويكون هذا الخيار مفيداً عندما تريد إزالة كافة البيانات المرتبطة بتدفق معين. وهذا يعني أنه لن تظهر أي بيانات في التقارير. لذا يرجى الانتباه إلى تأثير هذا الخيار عند استخدامه.

The screenshot displays the UNIFONIC Flow studio interface. The top navigation bar includes the UNIFONIC logo, user information (Limits: 20 K, Balance: SAR 74 K, TOP UP), and location settings (Timezone: Asia/Dubai, Month: KSA T, Mori: KSA). The main content area is titled 'MY FLOWS (8087 FLOWS)' and features a 'CREATE' button. Below the title are tabs for 'ALL', 'ACTIVE', 'DRAFT', and 'INACTIVE'. A table lists various flows with columns for Name, Version, Created at, Trigger, Status, and Action. A context menu is open over the 'duplicate_realtime' flow, showing options: Edit, Version, Duplicate, Delete (highlighted), and Stop Flow. The bottom of the interface shows pagination controls (1, 2, 3, ..., 809, < PREV, NEXT >) and a 'Go to page' field.
